

World Water Day Celebration

World Water Day falls on the 22nd of March every year. It is a day designated by the United Nations to raise awareness on preserving water resources.

In Singapore, World Water Day is an occasion where schools, grassroots organisations, non-government organisations, public agencies and private companies take the lead in organising events at our waterways and reservoirs.

Chongzheng celebrated World Water Day from 10 to 14 March 2014. A pre-assembly talk was conducted by the Head and Vice Head of Green Captains on the importance of saving water. An On-the-Spot Drawing Competition was held among the Primary 3 and 4 pupils to draw posters on Saving Water. An exhibition was also held during recess time with booths set up by the Green Captains to educate the peers on the 4 National Taps of Singapore, the sources of water pollution and the ways to save water. The information was totally planned and prepared by the Green Captain EXCO members.
