

1. Youth-for-the-Environment Day (from end of March to 21 April)

- A series of activities were lined up leading to the Youth for the Environment Day.
- An Assembly programme was conducted with the skit called “Stop Melting my Home” performed by an external vendor. The skit shared the message of reducing global warming to save the arctic animals.
- Save That Pen Project
  - ❖ Used pens were collected from the school community for a period of two weeks.
  - ❖ Pens collected were sorted out by the Green Captains and those that could be refilled were refilled while those which could not were recycled.

- M.A.C.E Fight Dengue Roadshow
  - ❖ Pupils learnt the importance of preventing Aedes mosquitoes from breeding and the ways to prevent through interactive online games.

- YED Exhibition @ Recess
  - ❖ The Green Captains manage a booth to gather pledges from the school community towards environment conservation. School leaders, middle managers, teachers and pupils wrote down their commitment towards saving the environment on the big piece of paper which depict a globe.
  - ❖ After writing down the pledges, a small piece of either green or blue paper torn from old magazines were pasted on the blank globe to form a collage of the Planet Earth. This is an act of commitment towards the pledge they made.

## HDB Youthoria Project 2014

Our pupils reached out to the residents in the Tampines Polyview residents on 20 April 2014. They shared with the residents on good neighbourliness and the importance of keeping our living environment clean and green and free of Aedes mosquitoes.
